Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

In response to the election requirement mailed July 5, 2005, Applicant hereby elects, with traverse, the invention characterized by the Examiner as Group II, drawn to downloading benefit information, claims 14-18, 23-31 and 36-39 being readable thereon.

The requirement asserts that the Group I invention, with claims 1-12¹ and 40-48 readable thereon, is related to the Group II invention. Consequently, for the restriction to be considered proper, the Examiner must show for the inventions: (A) separate classification thereof, (B) a separate status in the art when they are classifiable together, or (C) a different field of search. See MPEP §808.02. However, page 2 of the Action indicates that the Group I and II inventions are classifiable together in a same class/subclass, and does not show a

¹ It is to be noted that the Action fails to provide any indication of which invention claim 13 is allegedly drawn to.

separate status in the art or a different field of search. As such, Applicant respectfully submits the restriction between the Group I and Group II inventions is improper and that a search both the Group I and Group II inventions would not present serious burden on the Examiner. Accordingly, Applicant requests examination of at least claims 1-18, 23-31, 36-39 and 40-48.

Consideration and allowance of the instant application are now respectfully requested.

Respectfully submitted,

John F. Guay
